Why Setup in the UAE?

1

Trade corridor and Open Market

The United Arab Emirates has a long history of economic growth and is now a big player in the global economy fueled by business friendly policies and tax structures.

2

Trading Policies

The country joined the World Trade Organization in 2005, which helped to modernize its trade policy and promote global access to investments within the country.

3

Easy Access to both expat and local talent

Given the location and expat friendly living standards in UAE, one has access to a large pool of talent from neighboring countries as well as local people.

4

Low tax and Fast-growing market

UAE taxes are among the lowest in the world at 9% corporate tax and 5% VAT on local sales and profits; with overseas income and trade still being tax free.

5

High Internet Penetration

UAE has a 98% internet penetration rate in the country, with the highest time spent on YouTube, Snapchat, Whatsapp, and Twitter.

6

Ease of doing business

United Arab Emirates ranks high in terms of ease of doing business, according to international agencies.
